

# **MEG May Breakfast Ride— Harry's, Pyrmont**

## **Saturday 21 May 2022**

8.45/9.00 Cronulla RSL Car Park

Grab a pie floater, mushy peas, topped with sweet chilli sauce followed by a can of Fanta. Just like the old days on the way home from that “late lunch”!!!

If you got a bike licence, grab a café racer and come along on this one. We ride through the grunge to Harry' Cafe de Wheels for a kerbside breakfast. Newtown is 40Kmph all the way so you wont's need much to stay with the pack.

BUT.... Currently, across the road, The Powerhouse museum has some fabulous exhibits at the moment. The one that has captured me is Microcar exhibit. The Goggomobil was an Australian invention. 5000 were made!!! They were from an era of austerity after the war.

<https://www.maas.museum/event/microcars/>

There is lots other...The book shop is excellent. There are exhibits on textiles and ceramics, and even the coffee is good....its different to the MCA....

We can park in the side street. I've seen the exhibit recently, so I'll stay with the bikes and keep my eye on them for an hour or so.

Here's a link to Harry's menu.....I suggest you don't show it too you Cardiologist..But my dad used to say that a man needs some of this stuff every now...

Thanks....

Steve Turner
